ADJUSTABLE BENCH

This multi-purpose bench has a simple, compact design created specifically for barbell and dumbbell workouts. It's easy to move around, with integrated wheels and handle

KETTLEBELLS

Perfect for building your body's strength and explosiveness. With an off-set center of mass, Kettlebells give you the advantage of building strength, stability, coordination, and power all at once.

HEXAGON DUMBBELLS

Variety of Dumbbells with different weights

TECHNOGYM BENCH

This multi-purpose bench has a simple, compact design created specifically for barbell and dumbbell workouts. It's easy to move around, with integrated wheels and handle

BALANCE DOME

The Balance Dome helps users develop their stability and coordination. It has a flat bottom with two handles for exercises. The texture on the top of the Balance Dome is designed to enhance grip

HEXAGON DUMBELLS

Wellness Ball Training is the fitness ball made with an innovative compound material that promotes perfect stability, adherence and softness when working out. It offers you several different ways to achieve physical fitness and to perform a variety of stretching and muscle relaxation exercises

EXERCISE MAT

The extra-large size of this yoga mat gives you lots of room to do any floor exercise all within its surface area
